MUM

What is being dead like?

Doctor Who Adventures reader Robert Bliss

I'll be honest with you, Robert, it's not all I thought it would be.

It's very quiet though, so that's something, after years

Who are your mum and dad?

Ollie Newton-Hayes

Fred and Sharon Minotaur, but my mother's maiden name was Sharon Nimon.

How old are you?

Thomas Youe

I was imprisoned for so long that I'm not quite sure, but it certainly takes a long time to grow a set of horns like mine. I'm probably hundreds of years old - maybe even older!

Did you ever consider not killing people?

Laura Ellis

Well, look what happened when I tried that, Laura - I died myself. So I wouldn't say that's been very successful, really.

Is there room service at the hotel, or do you have to go to the kitchen?

Mark Joselin

The food here is generally very good, although I do sometimes pop out for a midnight snack, and have eaten the odd chef by accident. Oops!

Where's my room service?

"I HAVE EATEN THE ODD CHEF BY ACCIDENT"

THE MINOTAUR

Are you friends with the Loch Ness Monster?

Gary Hales

I used to be, but I got sick of getting wet every time I went to visit her - she would never come to the hotel. She said she didn't like the wallpaper.

What is your fave human food?

Solomon Hayes

Apart from their personal belief systems and, ultimately, their life spirit? Hmm. I would have to say fish and chips, with lots of vinegar.

Would you consider dying your hair pink?

Angel Rose

I think it would look quite striking, but I do have a lot of hair, so it would probably take too long, and cost quite a lot of money.

Not to be rude, but your horns and teeth are very dirty. Would you like some toothpaste and horn whitener?

Ethan Hammer

Ethan, I think you should spend a bit more time praising me, and a bit less time criticising my personal hygiene. OK?

FACTFILE TARDIS SCANNER

THIS ISSUE, WE TAKE A LOOK
AT THE **HARVESTERS**

HEADGEAR

A visor protects against snowblindness, and contains breathing apparatus for working on worlds where there is no oxygen present.

TECH

Harvesters carry tech that can scan for weapons and tell if someone has travelled in time. Their helmet cameras make constant recordings.

WEAR AND TEAR

The armour is spotted with signs of corrosion. A previous user might have been caught in an acid rainstorm used to melt a forest.

WEAPONRY

The newest part of the uniform is the gun. Could this mean that the military cares more for its weapons than its soldiers?

ANDROZANI HARVESTER

Towering above the trees, these immense tripods are in constant contact with the mothership orbiting the farm.

CAMOUFLAGE

The uniform might mean that the armour has been used on a world where this bright colour would be a useful disguise.

VULNERABLE

The armour doesn't cover the whole body. There are parts that could be exposed to acid rain.

TIME AWARE

The harvesters come from the year 5345, where travelling in time is not unusual. When Madge arrives at the Tree Farm, they immediately know she is a time traveller.

FAST FACT!

The harvesters come from Androzani Major, a planet that's been in *Doctor Who* before - in a story called *The Caves of Androzani*.

CHRISTMAS SPECIAL
THE DOCTOR,
THE WIDOW
AND THE
WARDROBE

HOW THE DOCTOR WHO TEAM
CREATE A WHOLE NEW WORLD!

WALES!

1

First, the team find a deep, dark forest. Which is easy to do in Wales, because there are loads of them!

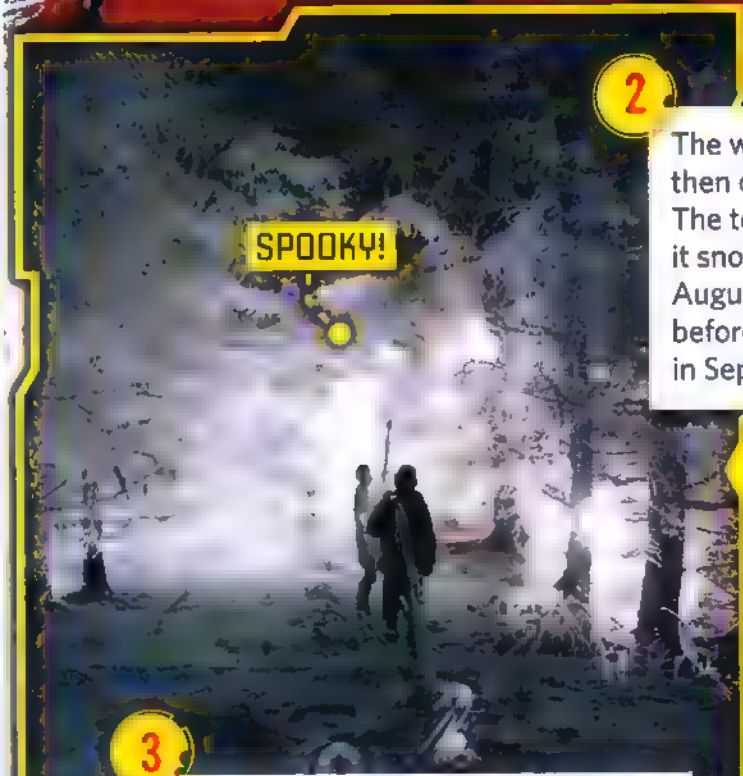

2

The whole place is then covered in snow! The team have made it snow on a scorching August bank holiday before now, so snow in September is easy.

SPOOKY!

SNOW?

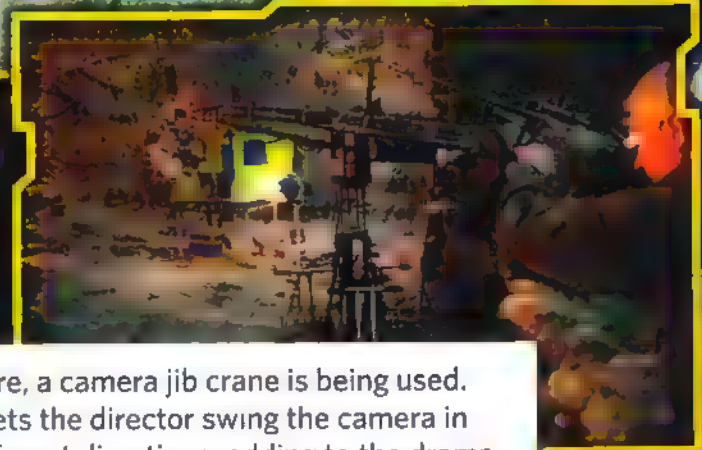

3

Next, the lighting people get involved. The scene is filmed at night, and the technicians are careful to make everything look extra Christmassy!

4

Here, a camera jib crane is being used. It lets the director swing the camera in different directions, adding to the drama.

SECRETS

Let me show you how it's done!

7

After all the set-ups and rehearsals, everything comes together, and a new strange world comes alive in *Doctor Who*.

RAIN HAT!

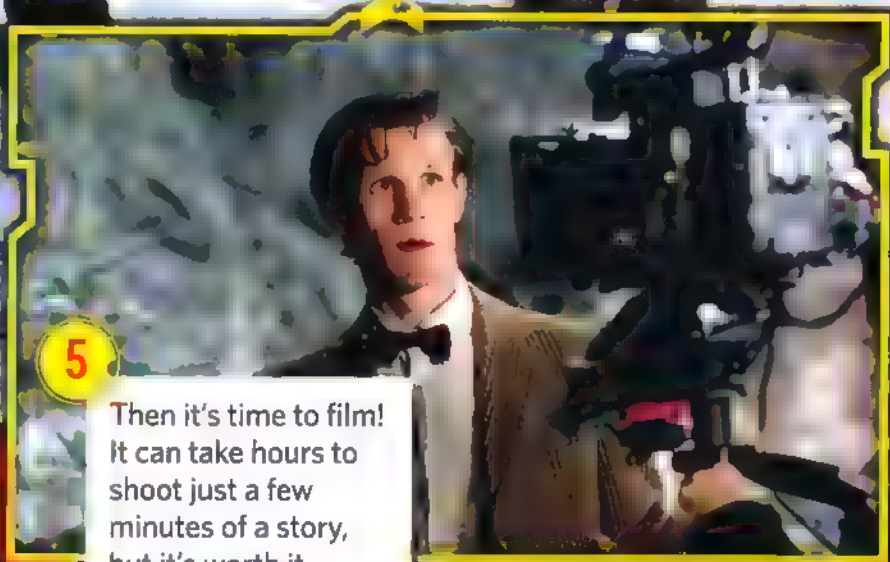

6

The actors need to be looked after, so they're wrapped up warm when not shooting. Things like drizzly rain must be ignored - filming runs to a very tight schedule!

5

Then it's time to film! It can take hours to shoot just a few minutes of a story, but it's worth it.

Go on,
ask me
anything!

DO YOU HAVE A PROBLEM THAT NEEDS SOLVING? THEN ASK THE DOCTOR!

HAPPY BIRTHDAY!

Dear Doctor,
How do you celebrate
your birthday?
Oliver Stotts

**THE DOCTOR
REPLIES:**

Bungee jumping, lots of cakes and adventures. G's birthday is the day you have a road race and save tea time before your birthday tea. Then there's a sing-along with the cast of *Glee*, and a special called a Justin Bieber I don't know what that is, but Ringo Starr is said to be on the bill. G's first birthday was the first time I saw her.
